All classes are held at our Elk Grove Training Center - 780 Lively Boulevard, Elk Grove Village, IL 60007.

Class sizes are limited and fill quickly. No-shows will be charged full class fee.

All courses include light breakfast, lunch, beverages, and course materials.

Residential / Light Commercial Installation & Basic Service

This course reviews the proper installation and operation of Samsung HVAC single-zone and multi-zone heat pump ductless split systems. The course will also cover troubleshooting various, common, error codes and accurately diagnosing systems. Lab time will be spent reviewing component locations, installation best practices, and basic troubleshooting.

Residential / Light Commercial Advanced Service

This course provides an in-depth review of the sequence of operation of Samsung HVAC single-zone and multi-zone heat pump ductless split systems, along with a deep dive into troubleshooting numerous system errors. Lab time will be spent with hands-on troubleshooting of various components including PCBs, compressors, and EEVs.

Pre-requisite - RLC Installation & Basic Service

DVM (VRF) Installation & Startup

This 2-day course will provide technicians everything they will need to know to properly install and commission Samsung HVAC air-source DVM S systems. We will cover a number of topics including physical installation, piping systems, controls systems, and initialization. Lab time will be spent reviewing installation best practices, basic programming, and the S-Net Pro 2 service software tool.

DVM (VRF) Advanced Service

This 2-day course will review Samsung DVM S, 3-phase, air-cooled, VRF heat pump and heat recovery system operations, including the main control components in indoor and outdoor units. Hands-on lab time will be spent troubleshooting error codes and using proper test procedures to determine and correct a wide variety of system issues.

Pre-requisite—DVM Installation & Startup

To register, please complete the section below and check the box next to the class you want to attend in the calendar above.

Please register for each class you want to attend on a separate form.
