 See reverse side for registration instructions

Residential / Light Commercial Installation & Basic Service

This course reviews the proper installation and operation of Samsung HVAC single-zone and multi-zone heat pump ductless split systems. The course will also cover troubleshooting various, common, error codes and accurately diagnosing systems. Lab time will be spent reviewing component locations, installation best practices, and basic troubleshooting.

Residential / Light Commercial Advanced Service

This course provides an in-depth review of the sequence of operation of Samsung HVAC single-zone and multi-zone heat pump ductless split systems, along with a deep dive into troubleshooting numerous system errors. Lab time will be spent with hands-on troubleshooting of various components including PCBs, compressors, and EEVs.

Pre-requisite - RLC Installation & Basic Service

DVM S (VRF) Installation & Startup

This 2-day course will provide technicians everything they will need to know to properly install and commission Samsung HVAC air-source DVM S systems. We will cover a number of topics including physical installation, piping systems, controls systems, and initialization. Lab time will be spent reviewing installation best practices, basic programming, and the S-Net Pro 2 service software tool.

DVM S (VRF) Advanced Service

This 2-day course will review Samsung DVM S, 3-phase, air-cooled, VRF heat pump and heat recovery system operations, including the main control components in indoor and outdoor units. Hands-on lab time will be spent troubleshooting error codes and using proper test procedures to determine and correct a wide variety of system issues.

Pre-requisite—DVM S Installation & Startup

Registration Instructions

STEP #1

Using a web browser, navigate to:
www.samsunghvac.com/training

If you have never registered for access to the Samsung Business Academy, continue to step 2.

If you have access to the Samsung Business Academy, continue to step 5.

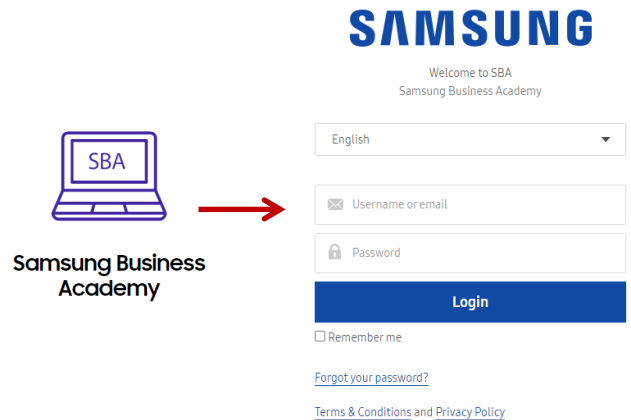

STEP #4

The training department at Samsung HVAC will approve your registration and you will receive an e-mail indicating that your registration for the site has been completed.

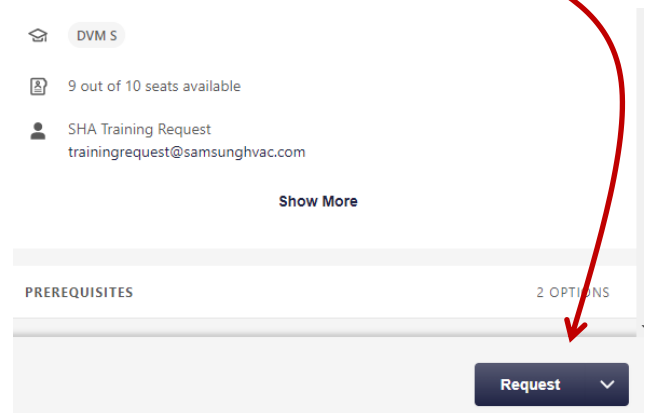

STEP #5

Log in to the Samsung Business Academy by clicking the SBA icon on the main training website and completing the log in screen on the following page.

STEP #6

Navigate through the event calendar to find the course you'd like to register for and click on the course name. In the session details screen that pops up, click 'Request' in the bottom right hand corner to enroll.

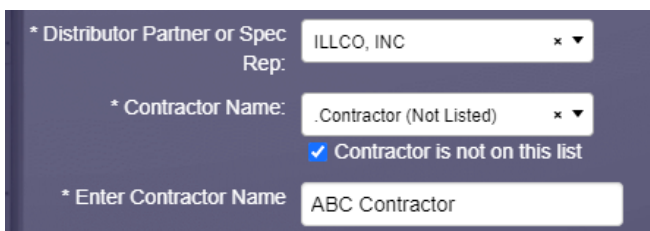

STEP #2

Click on 'Register' and select 'HVAC Contractor'

STEP #3

Complete the registration form on the following page. Select ILLCO, Inc. as your distributor partner or spec rep. If your contractor name is not in the dropdown box, check 'Contractor is not on this list' and enter your company name in the field. Make sure to click 'Submit' when completed.

STEP #7

You have successfully registered for the training course. Please note that course fees will be charged to you through ILLCO and a follow up e-mail or phone call will be made to collect payment prior to the class date.
